

Affidavit from Tara Chand Esq., President IPG Natural Health LLC

Claim: 100% Effective in treating ear infections:

Basis of Claims: The main ingredient in Ear Natural is mustard essential oil. As has been documented in a large number of research articles from universities, available on Google Search, this specific oil with hundreds of organic compounds has acute antiviral and antibacterial properties and kills viruses and bacteria on contact. That is why Ear Natural, when used as ear drops in the ear is 100% effective in immediately killing the virus and bacteria inside the middle-ear, the cause of the infections.

Claim: x1000 times better than prescription antibiotics

Basis of Claims: x1000 times is derived from three different x10 times equal to x1000 times as follows:

First x10 times: Prescription antibiotics require urgent care doctor visit, prescription of antibiotics, require multiple hours, considerable cost exceeding \$100, compared to OTC medicine Ear Natural, readily available in your medicine cabinet at home for \$45 for one year use.

Second x10 times: Prescription antibiotics need to be taken over five days, compared to OTC medicine Ear Natural for a onetime use that works in less than a minute.

Third x10 times: Prescription antibiotics are comprised of lab cultivated collection of bacteria, then these are killed to be dead and when taken orally, excite human immune to create antibodies to kill the infection bacteria; are not effective for virus infection, compared with Ear Natural OTC is comprised of a combination of natural essential oils that are effective against both viruses and bacteria.

Signed
